

# **Protector**

Ride – I ignore the sea that's raging on you  
Ride – The clashing waves you try to hide  
You hear the ghosts from deep below they're screaming out  
Master save me  
Master ban me  
Master break me  
Master help your faithful ones

Protector – on your flying horse  
Protector – always riding on  
Protector – master of the sea  
Protector – they're beseeching thee

And still you ride – the course inside you makes you hold on  
Tide – to what they all refuse  
And now it's only you who feels the menace  
The phantoms of the deep and blue  
Storm is roaring  
Walls are breaking  
And you know it's all to late

Protector – on your flying horse  
Protector – always riding on  
Protector – master of the sea  
Protector – they're beseeching thee
