

Thoughts

(Stockmann/Schmitt)

Someone new something fresh

You said that's what you need

I thought so too but we were wrong

You did the step you went away

My heart it felt so low

But still I doubt I still love you

And then I knew it's all too late

I couldn't see you go away

But now it all goes on

We couldn't stop we could let go

Maybe it's all too late

But I don't mind 'cause we are strong

You did the step you went away

I felt so lost I felt so low

Now you're coming back to me

No way for us we can't go on

But something still reminds us of

The love that we once knew

It was you.....

Chorus: And I'm always your friend.....

I see the time we were just friends

We didn't know the way to go

We couldn't see we love each other

Just like a sister, me your brother

I know it took you by surprise

And now there's no way to deny

It was you.....

Chorus: And I'm always your friend.....
